RESULTS

Recognition

Ranked in the Inc. 500 as one of America's fastest growing companies because of our reputation for delivering value and word-of-mouth endorsements.

Testimonials

“Provide consistently delivers the highest quality results at reasonable rates. Their ability to understand both the business process and technology aspects of large-scale global efforts is unmatched.”

Director, Fortune 100 pharmaceutical company

“Provide consultants have proven themselves as valuable solutions providers time and again. We have partnered on many PeopleSoft HCM projects over the years and they have always delivered quality services by only assigning highly experienced and professional resources.” *Senior Manager HRIT, Fortune 500 Retailer*

Talent. Solutions. Results.

PROJECT RESULTS

Pfizer – solved a Sarbanes-Oxley audit issue by designing and implementing a global identity management system, including business processes and software, integrated with PeopleSoft transactions and the HR database.

New York University Abu Dhabi – provided functional project management and technical expertise to design and implement all administrative software applications needed to ensure the new campus runs efficiently with integrated business processes and technology.

Office Depot – led a team of 30 consultants to assist with the global implementation of PeopleSoft Workforce Recruit and Applicant eRecruit Self-Service. The team supported development, system testing, user acceptance testing, and post production support.

The American Medical Association (AMA) – assisted in the collection, analysis, and organization of nationwide data related to physician membership in Independent Practice Associations (IPAs) and Physician Hospital Organizations (PHOs). Providege's team of analysts developed specialized formulae to segment and rank these organizations into primary, secondary, and tertiary targets - providing valuable analysis for over 1600 provider organizations.

Wendy's Arby's Group – provided functional leadership for the Accounts Payable and Leases work-streams in the establishment of a Shared Services Center and developed the business processes, designed the new organizational structure, and created training.

WHY WORK WITH PROVIDGE?

Best value – our consultants have decades of experience and most are Big Four alumnae. We provide highly experienced professionals at competitive rates versus the Big Four due to our low overhead and efficient practices.

Customer service – a Managing Director and/or Associate Partner will be assigned onsite to your project to keep the project within budget and on time.

Functional and technical expertise – our management and consultants combine unrivaled technical knowledge with business experience to solve global business problems and bridge the communication gaps between IT and business professionals.
